Bachelor's Of Technology (B.Tech)

Hi-Tech Institute of Engineering & Technology, Ghaziabad

2020 - 2021

Intermediate

S.G.R.R Public School, Ghaziabad

PROJECTS

Wanderlust

Wanderlust (Full-StackWeb Application) Developed a feature-rich full-stack web application inspired by Airbnb platform that allows users to search, book, and list properties for rent.

Personal Portfolio

Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, showcasing projects and skills. Implemented smooth navigation, interactive elements, and modern design principles to enhance user experience across devices.

Video Conferencing

Built a real-time video conferencing application using the MERN stack (MongoDB, Express.js, React.js, Node.js) with WebRTC integration. Implemented user authentication, peer-to-peer video streaming, and chat features for seamless communication.

SKILLS

Languages: HTML, CSS, Javascript, SQL, Python

Libraries: React.js

Frameworks: Express.js

Runtime Environment: Node.js

Databases: MongoDB, SQL
